READ-IN-CLUB

READING FOR CuLtures across Borders

About the project

The READ-IN-CLUB was a joint project of 6 partners from 5 countries in Europe. It was derived from the need to equip the creative and cultural sector with innovation and creativity in order to ensure a swift and smooth recovery from the novel crisis of COVID-19.

Putting the EU values for social cohesion, inclusion, and intercultural dialogue at the core of our activities, we focus on the book sector in order to make the highest possible impact. In the READ-IN-CLUB the art of literature and the institution of book clubs and reading communities, together with the power of digital technology, become powerful facilitators of informal learning and dialogue and create a supportive cultural environment where people are encouraged to become innovators and effective lifelong learners.

“In a book club environment, readers are able to satisfy their need to increase their knowledge, nurture their love of books, and share bonds of community”.
