IO4_The READ-IN-CLUB e-Manual

The READ-IN-CLUB e-Manual is under development and will soon be ready!

WHY IS IT IMPORTANT? It will provide the essential context and assistance to potential reading clubs' coordinators-users for exploiting READ IN-CLUB products, tools and materials in the best possible way.

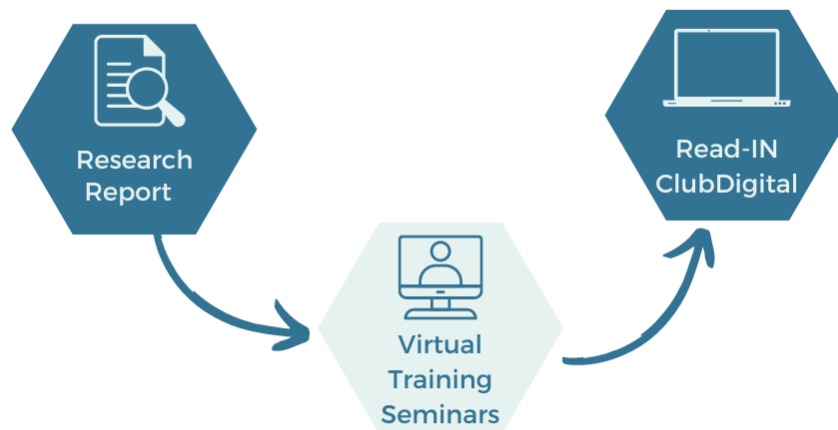

WHAT WILL IT OFFER? It will provide specific guidelines to the project's target group on how to integrate the READ-IN-CLUB training package in their activities; and how to utilize it as an educational component, in alignment with their reading groups potential and needs.

READ-IN-CLUB

The E-manual will incorporate the principles adopted in the READ-IN-CLUB Research Report (IO1) and offer educational guidelines on how to efficiently use the Virtual Training Seminars for «Lit.Mentors» (IO2), and the # (IO3).

ALSO you will find a collection of a number of **Case Studies** delivered by READ-IN- CLUB partners & **directions** for the reading communities coordinators on how to create an adequate and appropriate learning environment for book clubs and reading clubs.

**STAY TUNED AND BENEFIT
FROM THE RESULTS!**
